Telephone: 978.352.2800

One of the primary goals of NEMMC is, source reduction. Abandoned tires often become a habitat for container breeding mosquitoes. This increases the potential for mosquito-borne diseases in the surrounding area. Removing tires not only reduces potential mosquito breeding habitats, but it also helps keep the environment clean. NEMMC will pick up unwanted tires from residents in participating municipalities. Click [here](#) to request a tire collection.

#### **2022/2023 Residential Tire Collection Requirements**

1. Must be a resident within our member communities
2. Passenger and light truck tires only **(No rims allowed)**
3. Maximum of 10 tires per household per program
4. Tires accepted as part of this program must be left curb side

*NEMMC is subject to reject tires or end this program early without notice.*
